

RANGELY

COLORADO

Town Council Packet
July 28, 2020 @ 7:00pm

1 – Agenda

GUIDELINES FOR PUBLIC INPUT

Public Input is a vital and important portion of every meeting and will be permitted throughout the meeting, but according to the following guidelines:

- a. Public input is allowed during the Agenda identified **Public Input** and **Public Hearing** portion of the meeting.
 - i. If you would like to address the meeting during the appropriate times, please raise your hand and when called upon you will be asked to come to the podium. ***Announce your name*** so that your statements can be adequately captured in the meeting minutes.
 - ii. ***Please keep your comments to 3-5 minutes*** as others may want to participate throughout the meeting and to insure that the subject does not drift.
- b. Throughout the meeting agenda calls for public input will be made, generally pertaining to specific action items. Please follow the same format as above.
- c. At the conclusion of the meeting, if the meeting chair believes additional public comment is necessary, the floor will be open.

We hope that this guideline will improve the effectiveness and order of the Town's Public Meetings. It is the intent of your publicly elected officials to stay open to your feelings on a variety of issues.

Thank you, Rangely Mayor

Town of Rangely

July 28, 2020 - 7:00pm

1. **Call to Order** – 7:00pm
2. **Roll Call** – Andy Shaffer, Rich Garner, Luke Geer, Tyson Hacking, Alisa Granger, Keely Ellis present. Trey Robie absent.
3. **Invocation** - Led by Tyson Hacking
4. **Pledge of Allegiance** – Led by Marybel Cox
5. **Minutes of Meeting**
 - a. *Discussion and Action to approve the minutes of June 9, 2020* – **Motion made by Tyson Hacking to approve the minutes of June 9, 2020, second by Keely Ellis. Motion passed**
6. **Petitions and Public Input** - None
7. **Changes to the Agenda** - None
8. **Public Hearings - 7:10pm** – N/A
9. **Committee/Board Meetings** – RDA/RDC meeting was scheduled for June 18th was cancelled.
10. **Reports From Council** – AGNC meeting in Palisade. Keely stated that no new business was discussed.
11. **Supervisor Reports – See Attached**
 - a. *Don Reed – Utilities* – Don reported that both the water and wastewater plants are operating in normal capacity and compliance ranges. The department is working on many different projects. Don stated that the 2019 Consumer Confidence Report has been completed and will be available to the public and will also be published in the Herald Times. The waterline project along Hwy 139 was awarded to W.C. Striegel. The utilizes department will be overseeing the project with quality control being conducted by Jocelyn. They have started on the project and allowing for the job to take up to four months, if needed. Don reported that most of the leg work required for building the transfer pump station to inter-connect the low and middle zone after system has been completed. SGM should have study done, then a final proposal will be submitted to the council for approval prior to the August 1st deadline of the DOLA grant funding. The manhole project has been completed. The next phase would be to start water line replacements.
12. **Reports from Officers – Town Manager Update** – Lisa reported to the council that a partial Severance payment have been received. Final distribution should be in August. Working with Freedom March organizers. Had a meeting with Sea Plane organizers and discussed coordinating the event to take place during SeptemberFest. Rally Colorado is still planning to hold their event in August. Jocelyn is working on the right of way on the entrance on the east side of main street. Jeannie is working on ads

and getting ready to promote those on social media. McKenzie and Jeannie have been working on Welcome Baskets to give to those that are moving into Rangely. Airport waterline work began this week. Jeff is planning on being done by next week to pressure test. Dollar General is progressing nicely.

13. Old Business

14. New Business

- a. *Discussion and action to approve the 2019 Audited Financial Statements as presented by Colorado CPA Services, PC* – Marlo Coates from ColoCPA presented the prepared financial audit to the Council. Provided an overview. **Motion made by Luke Geer to approve the 2019 Audited Financial Statements as presented by Colorado CPA Service, PC, second by Rich Garner. Motion passed.**
- b. *Discussion and action to approve the May Financial Summary* – Water fund will come around with more residents consuming water. WRV have had more renovation than anticipated but should still come out ahead. **Motion made by Tyson Hacking to approve the May Financial Summary, second by Rich Garner. Motion passed**
- c. *Discussion and action to opt into the DOLA Coronavirus Relief Fund (CVRF) program* – This is the second roll out of funding. This fund is for counties outside of the Denver Metro area. It is very specific on how it is spent. **Motion made by Keely Ellis to opt into the DOLA Coronavirus Relief Fund (CVRF) program, second by Luke Geer. Motion passed**
- d. *Discussion and action to approve the Collaboration Agreement between Rio Blanco County, Town of Rangely and Town of Meeker to accept the equal allocation of \$542,518.00. Rangely’s allocation will be 180,839.34. The funds may be reallocated before the end of year 2020.* – Each entity takes care of their own fund. Expenses will be submitted for reimbursement. **Motion made by Rich Garner to approve the Collaboration Agreement between Rio Blanco County, Town of Rangely, and Town of Meeker to accept the equal allocation of \$542,518.00. Rangely’s allocation will be 180,839.34. The funds may be reallocated before the end of year 2020, second by Keely Ellis. Motion passed**

15. Informational Items

- a. *Mosquito Spraying June 24-28th, 2020*
- b. *SB 20-217 Law Enforcement Integrity*

16. Board Vacancies

- a. *Planning and Zoning Board Vacancy*

17. Scheduled Announcements

- a. *Rio Blanco Water Conservancy District Board meeting is scheduled for June 24, 2020 at 6:00pm*
- b. *Rangely District Hospital board meeting is scheduled for June 25, 2020 at 6:00pm*
- c. *Community Outreach meeting is scheduled for July 6, 2020 at 6:00pm*
- d. *Western Rio Blanco Park & Recreation District Board meeting is scheduled for July 13, 2020 at 7:00pm*
- e. *Rangely District Library Board meeting is scheduled for July 13, 2020 at 5:00pm*
- f. *RDA/RDC Board meeting scheduled for July 16, 2020 at 7:00am*
- g. *Rangely Chamber of Commerce Board meeting is scheduled for July 16, 2020 at 12:00noon*
- h. *Rural Fire Protection District Board meeting is scheduled for July 20, 2020 at 7:00pm*
- i. *Rio Blanco County Commissioners Board meeting is scheduled for July 21, 2020 at 11:00am*
- j. *Rangely Junior College District Board meeting is scheduled for July 21, 2020 at 12:00noon*
- k. *Rangely School District Board meeting has been scheduled for July 21, 2020 at 6:15pm*

COLORADO RIVER DISTRICT
PROTECTING WESTERN COLORADO WATER SINCE 1937

FOR IMMEDIATE RELEASE
Tuesday, July 21, 2020

CONTACT: [Jim Pokrandt](#) – 970.319.1807

Colorado River District to ask voters for money to bolster protection of West Slope water

Board authorizes Nov. 3 ballot question to increase mill levy by \$1.90 per year per assessed \$100,000 of residential value

GLENWOOD SPRINGS, Colo. – The Colorado River District’s board of directors adopted a resolution Tuesday, July 21, 2020, to ask voters in November to support a property tax increase to protect water security in Western Colorado while funding projects to improve water use and healthy streams.

River District General Manager Andy Mueller said the board’s resolution asks for taxpayer support for the River District work directed at:

- Fighting to keep water on the West Slope;
- Protecting adequate water supplies for West Slope farmers and ranchers;
- Protecting sustainable drinking water supplies for West Slope communities; and
- Protecting fish, wildlife, and recreation by maintaining river levels and water quality.

The resolution also approves a Fiscal Implementation Plan that spells out how the added money would be invested across the district. Included in the plan is an explicit direction that the “district is committed to coordinating and consulting local elected officials in any and all relevant counties prior to committing funds to any specific project or activity pursued by the district.”

If voters agree, the median residential property tax increase in the district’s 15-county region would be \$7.03 per year. The question will go on the Nov. 3, 2020, ballot in Grand, Summit, Eagle, Pitkin, Garfield, Routt, Moffat, Rio Blanco, Mesa, Delta, Ouray, Gunnison, and parts of Montrose, Saguache and Hinsdale counties.

The resolution references the mission of the Colorado River Water Conservation District to lead in the protection, conservation, use and development of the water resources of the Colorado River Basin for the welfare of the District and to safeguard for Colorado all waters of the Colorado River to which the state is entitled.

According to the resolution, in these increasingly contentious times of long-term drought and external pressure on water, Western Colorado needs “a strong and effective advocate.” Meanwhile the district budget is “projected to continue to be negatively impacted due to declining revenues from the energy sector, the impacts of the Gallagher Amendment and the revenue limitations of the Taxpayer Bill of Rights (known commonly as TABOR).”

According to the Fiscal Implementation Plan, the new mill levy would raise about \$4.9 million more annually for the River District throughout its 15-county boundaries. About \$4.2 million would be dedicated to partnership projects across the District in one or more of the following five categories laid out in the plan: **productive agriculture, infrastructure, healthy rivers, watershed health and water quality, conservation and efficiency**. The rest would address budgetary reductions caused by the Gallagher and TABOR amendments. No new staff positions would be created with the new funds.

Resolution adopted July 21, 2020

Fiscal Implementation Plan adopted July 21, 2020

###

COLORADO RIVER DISTRICT
PROTECTING WESTERN COLORADO WATER SINCE 1937

RESOLUTION 2020-1

A. **WHEREAS**, the mission of the Colorado River Water Conservation District is to lead in the protection, conservation, use and development of the water resources of the Colorado River Basin for the welfare of the District and to safeguard for Colorado all waters of the Colorado River to which the state is entitled; and

B. **WHEREAS**, the waters of the Colorado River which originate within the boundaries of the District are under increasing pressure at the same time that the flow of the river is decreasing due to long term drought; and

C. **WHEREAS**, in order to protect the water resources of the District in these increasingly contentious times, the people of the District need the District to be a strong and effective advocate and to lead in the identification and implementation of multi-purpose water projects in all areas of water use in western Colorado including areas such as productive agriculture, infrastructure, healthy rivers, watershed health and water quality, conservation and efficiency; and

D. **WHEREAS**, the Colorado River Water Conservation District revenues have been and are projected to continue to be negatively impacted due to declining revenues from the energy sector, the impacts of the Gallagher amendment and the revenue limitations of the Taxpayer Bill of Rights; and

E. **WHEREAS**, The Board of Directors of the Colorado River Water Conservation District believe that it is appropriate to ask the voters of the District to authorize an increase in taxes to fund the District's critical work; and

F. **WHEREAS**, The Board of Directors of the Colorado River Water Conservation District believe that it is their obligation to voters to indicate their commitment as to how any such new tax revenue will be spent by the District.

NOW THEREFORE, BE IT RESOLVED that the Board of Directors of the Colorado River Water Conservation District officially certify and direct that the following ballot question be placed on the ballot in all fifteen of the counties within the District:

Shall Colorado River Water Conservation District, also known as the Colorado River District, taxes be increased by an amount up to \$4,969,041 in 2021 (which increase amounts to approximately \$1.90 in 2021 for every \$100,000 in residential home value), and by such amounts as are generated annually thereafter from an additional property tax levy of 0.248 mills (for a total mill levy

of 0.5 mills) to enable the Colorado River District to protect and safeguard Western Colorado water by:

- *Fighting to keep water on the West Slope;*
- *Protecting adequate water supplies for West Slope farmers and ranchers;*
- *Protecting sustainable drinking water supplies for West Slope communities; and*
- *Protecting fish, wildlife, and recreation by maintaining river levels and water quality;*

provided that the District will not utilize these additional funds for the purpose of paying to fallow irrigated agriculture; with such expenditures reported to the public in an annually published independent financial audit; and shall all revenues received by the District in 2021 and each subsequent year be collected, retained and spent notwithstanding any limits provided by law?

BE IT FURTHER RESOLVED, that the Board of Directors of the Colorado River Water Conservation District hereby authorizes Board officers and District staff to take any and all necessary steps to place the above question lawfully on the ballot in all fifteen counties in the next general election which shall take place on November 3, 2020; and

BE IT FURTHER RESOLVED, that the Board of Directors of the Colorado River Water Conservation District also adopts the Fiscal Implementation Plan as a statement of its commitment to the public as to how any revenue generated by the above identified ballot question will be expended by the District.

The Board of Directors of the Colorado River Water Conservation District indicated its consent to Resolution 2020-1 by motion on July 21, 2020.

COLORADO RIVER WATER CONSERVATION DISTRICT

By: 
David H. Merritt, President

Attested to by:

Andrew A. Mueller, Secretary/General Manager

COLORADO RIVER DISTRICT
PROTECTING WESTERN COLORADO WATER SINCE 1937

Implementation Plan for
Additional CRWCD Funding Acquired
Through a Successful Ballot Question
Authorizing a Mill Levy Increase
Adopted by the Board July 21, 2020
As part of Resolution 2020-01

WHAT:

Potential Ballot Question in November of 2020 requesting authority to raise CRWCD mill levy by .248 mills, increasing the total mill levy from .252 to .5 mills.

HOW MUCH:

Projected to raise \$4.9 million in additional annual tax revenue for the District.

TIMING:

The tax increase will, if approved by the voters, commence with payment of taxes in 2021.

TABOR:

The ballot question if approved by the voters, will eliminate the Spending/Revenue Taxpayer Bill of Rights (TABOR) limitations on the District but not the tax rate cap. This means that the District will be able to keep and spend state and local grant funds and additional revenue generated by increased valuations greater than the TABOR revenue cap which is limited to inflation plus local growth. However, if this ballot question is approved by the voters, the District's annual mill levy will be capped at .5 mills and the District's tax revenue will be limited by this cap. This ballot question is a TABOR compliance question, meaning that it follows and respects the directives and requirements of TABOR with respect to seeking voter approval for the proposed tax increase and the retention and expenditure of additional revenue.

GALLAGHER:

The proposed question does not eliminate the potential adverse implications to the District revenue stream posed by the Gallagher Amendment. Meaning that if the state fails to resolve the problems posed by the declining Residential Assessment Rate, the District's entire revenue stream will be impacted.

HOW THE MONEY WILL BE EXPENDED:¹

As stated in the proposed ballot question, the River District will utilize the entirety of the \$4.9 million in additional revenue for the following purposes:

- Fighting to keep water on the West Slope;
- Ensuring adequate water supplies for West Slope farmers and ranchers;
- Ensuring sustainable drinking water supplies for West Slope communities; and
- Protecting fish, wildlife, and recreation by maintaining river levels and water quality.

More specifically, the Colorado River District will allocate approximately \$4.2 million annually or approximately 86% of the amount raised, for partnerships with water users and communities within the District on projects identified as priorities by local communities and Basin Roundtables. The Board and staff of the Colorado River District will prioritize multi-purpose projects that meet needs in one or more of the following five categories: productive agriculture, infrastructure, healthy rivers, watershed health and water quality, conservation and efficiency. The District is committed to expending funds in an equitable manner which, over time, disperses the benefits of the program geographically within the District boundaries and between the identified categories. The District is also committed to utilizing these funds to drive the initiation and completion of projects that are priorities for residents of the District by utilizing District funds as a catalyst for matching funds from state, federal and private foundation sources. Bringing these funds to the table will allow the West Slope to strongly influence the type, scope and timing of important water supply projects within our District. The District is committed to coordinating and consulting local elected officials in any and all relevant counties prior to committing funds to any specific project or activity pursued by the District.

The categories of projects that the District will be looking to partner are more specifically described as follows:

- (I) **Productive agriculture projects** which could include multiple-use storage that addresses regional priorities; developing innovative and functional water leasing; suitable agriculture efficiency and conservation approaches; technical assistance and technological innovation; and dedicated resources for increasing community literacy about irrigated agriculture and supporting agricultural market growth. The District will not utilize these funds for the purpose of permanently or temporarily fallowing irrigated agriculture;
- (II) **Infrastructure projects** which could include upgrading aging infrastructure while incentivizing new storage and delivery projects that collaboratively address multiple needs, such as improved flows to meet demands, stream and

¹ The expenditures discussed in this section of the plan are stated in the affirmative “will.” The District’s ability to allocate and expend these funds is contingent upon a ballot question being placed on the ballot and voters approving the question, and is subject to constitutional limits on multi-year fiscal obligations and future governance determinations that are consistent with the authorizations provided by an approved ballot question.

watershed health, and habitat quality; multi-purpose projects and storage methods that are supported in the Water Plan and the Basin Implementation Plans;

- (III) **Healthy rivers projects** which could include those identified in stream management plans or similar projects, projects that support and sustain fish and wildlife, healthy aquifer conditions as they connect to healthy streams, economically important water-based recreation, wetland habitat, fish passage construction for new or revised water diversion structures, stream restoration projects, and environmental and recreational enhancements for new or revised water supply projects;
- (IV) **Watershed health and water quality projects** which could include projects identified in collaborative and science-based watershed management plans that reduce the risk from and increase resilience to fires and/or floods, rehabilitate streams, or make landscapes resilient to climate change, including, but not limited to science-based mechanical forest treatments and prescribed fire, projects that address drinking water quality for under-resourced communities, and projects that address pollutants such as selenium, salts, and others, as well as mine remediation activities; and
- (V) **Conservation and efficiency projects** which could include supporting agricultural water infrastructure that increases reliability and efficiency; municipal and industrial projects that promote efficiency, water conservation, green infrastructure, and outdoor landscaping to reduce consumptive use; increase leak detection for infrastructure repair and replacement; assisting communities with water-smart community development and water conservation programs; and targeting smaller, fast-growing, and communities with older infrastructure with strategic, incentive-based investments.

While the District cannot, at this time, commit funds to specific projects due to uncertainties associated with most projects related to permitting, litigation, additional funding and other third party actions, the following are projects endorsed by the Basin Roundtables in the Yampa/White/Green, Colorado and the Gunnison Basins which are representative of types of projects that the Colorado River District anticipates partnering on should voters approve the ballot question:²

Yampa/White/Green Basins representative projects:

Maybell ditch diversion structure and headgate rehabilitation and system efficiency improvements:

The modern headgate and additional system efficiency improvements will allow irrigators to better control the volume of water diverted from the Yampa, improving flows for non-consumptive users along 18 miles of the Yampa, as well as improving delivery for Maybell irrigators.

² By listing projects here, the Colorado River District does not intend to indicate any preference or priority of the listed projects over any other potential project.

Yampa River forest restoration and temperature mitigation:

The 2018 Yampa River Health Assessment and Streamflow Management Plan (aka The Stream Management Plan) found that the riparian forest is degraded on the reach of the Yampa River above the Chuck Lewis State Wildlife Area, through Steamboat and to the Wastewater Treatment Plant and that improving the quality of the vegetation, particularly the shading canopy cover, will lead to improvements in stream temperature and water quality on the Yampa River. By restoring the river forest, this 3-year project that was identified as a top priority action item in the Stream Management Plan, will also help to improve aquatic and terrestrial habitat and to stabilize the river channel thus making it more resilient to floods, droughts, or human impacts.

White River algae study and eventual mitigation:

High levels of Benthic algae have reached uncharacteristic and nuisance levels in the White River which have caused significant problems for consumptive and non-consumptive water users in the White River. The USGS study, which will be completed next year should shed light on contributing factors to the algae problem and will likely lead to identification and implementation of actions to address the problem.

White River Storage Project:

There has been significant work done to identify current and future water shortages for municipal, industrial, recreation and environmental purposes on the lower White River. Funds could be utilized to assist in the scoping, identification of locations, permitting and eventual construction of an appropriately sized storage project designed to address the myriad of needs identified by the local water conservancy district.

Gunnison Basin representative projects:

Cunningham Lake Reservoir Rehabilitation:

This project is located in the upper Gunnison River Basin and is representative of projects identified in the Stream Management Plan which identifies projects which will serve multi-beneficial purposes of maintaining water supplies for consumptive uses, stabilizing environmental flows and providing optimal temperatures. It is the rehabilitation of existing dam, which will improve delivery systems into and out of the reservoir, reduce irrigation shortages and improve Sage Grouse habitat.

Paonia Reservoir and Fire Mountain Canal Rehabilitation:

This project is located in the North Fork of the Gunnison and involves implementing a sediment control system and extending the enclosed conveyance network and constructing integrated telemetry-based measurement and control (SCADA) water storage and delivery facilities. It will improve water quality in the Gunnison River and enhance the ability of productive agriculture to thrive for generations to come.

Aspen Canal, Smith Fork Feeder and the Crawford Clipper Ditch:

This project is on the Smith Fork of the Gunnison River designed to more efficiently meet agricultural water needs while improving river flows and improving water quality in this

water-short sub-basin system by extending enclosed conveyance network and constructing integrated telemetry-based measurement and control (SCADA) water storage and delivery facilities.

Uncompahgre Valley Water Users Association Westside Valley Infrastructure Improvements:

This project is part of the Lower Gunnison Project on the Lower Uncompahgre and is designed to modernize and improve off- and on-farm water diversion, delivery and application infrastructure in the Uncompahgre River to more efficiently meet agricultural water needs while improving river flows and improving water quality in this water-short sub-basin, and it includes extending enclosed conveyance network and constructing integrated telemetry-based measurement and control (SCADA) water storage and delivery facilities.

Upper Uncompahgre Augmentation Plan/Ramshorn Reservoir:

This proposed project involves a relatively small multi-purpose reservoir which will help maintain environmental flows and provide additional needed protection to agricultural irrigators and municipalities from a senior call in extremely dry years.

Colorado River Basin representative projects:

Maintaining flows secured by the Shoshone call:

The Shoshone Power Plant is owned and operated by Xcel Energy and is located on the mainstem of the Colorado River in Glenwood Canyon. When the power plant is operating, the Shoshone Call, as a non-consumptive water right, can command the flow in the Colorado River and “pulls” water from the headwaters through Glenwood Canyon westward to the Grand Valley. The viability of a 100+ year old infrastructure is always in question making the exploration of more permanent long-term solutions an integral component of maintaining the Colorado River’s historical flow regime. Maintaining this historical stream flow regime provides significant administrative certainty for West Slope water users as well as several benefits for recreation, the environment, and water quality.

Grand Valley Roller Dam Rehabilitation:

The Roller Dam on the Colorado River was constructed in 1913 and is the point of diversion for several large senior irrigation rights. These irrigation rights are the primary calling rights on the Colorado River during the irrigation season and remain a significant source of irrigation water, while at the same time ensuring a consistent flow from the headwaters during the summer months. Maintaining this infrastructure is not only vital for agricultural interests in the Grand Valley but also provides for reliable administration for other water users as well as recreational and environmental benefits from consistent stream flows.

Windy Gap Reservoir Connectivity Channel:

Windy Gap Reservoir is an on-channel reservoir located on the Colorado River in Grand County that is owned and operated by the Municipal Subdistrict of the Northern Colorado

Water Conservancy District. The Subdistrict, with the support of the River District, Grand County, Colorado Water Conservation Board, Colorado Parks and Wildlife, Trout Unlimited, the Upper Colorado River Alliance, and other parties, intends to construct and operate the Windy Gap Connectivity Channel. The Connectivity Channel, once constructed, will provide a channel through the current footprint of the Windy Gap Reservoir, allowing the reconnection of the Colorado River. Based upon studies completed to date, the Connectivity Channel is expected to provide significant environmental benefits for the Colorado River by enhancing sediment transport, reducing streambed armoring, moderating elevated water temperatures, providing connectivity for aquatic life and fish passage, and enhancing aquatic habitat.

The remaining approximately 14% of the funds will be utilized by the District to fix the District's internal financial structural deficit caused by the cumulative impact of the Gallagher Amendment, the decline of tax revenue from the fossil fuel industry, and the Taxpayers' Bill of Rights revenue limitations. **The District will not utilize the new revenue to create additional staff positions** but will allocate the money to fund existing staff positions and business-related expenses. This allocation will help to ensure the financial integrity of the important work of the River District's enterprise fund by preserving enterprise reserves for anticipated capital expenses and critical maintenance and repair work on water supply assets owned by the District.

- 8 – Public Hearings
- 9 - Comittee Meeting
- 10 - Report from Council
- 11 - Reports from Supervisors

June 2020 - Supervisor Reports

POLICE DEPARTMENT – SUBMITTED BY POLICE CHIEF, TIRYNN HAMBLIN

Project status/Current Issues

Communication Division:

- **1177** calls for service through the communication center
- **59** calls for 9-1-1 services
- **12**- 9-1-1 misdials

Patrol Division:

- **366** incident calls for various crimes occurring or occurred
- **42** - cases **75**– traffic contacts **249**- incidents
- Responded to **6** alarm(s)
- **15** animal control calls for service
- **52** – calls for service to assist other agencies, **14** – ambulance, **9**– fire department, **13** – sheriff, **5** -CSP, and **11**-others.
- Citizens Assist – **140** – incidents for vin inspections, civil stand-by's and others.
- Property crimes **8** – theft from building, possession/receiving stolen property, fraud, misc. thefts, lost/found property, missing person, vandalism.
- Crimes against person **28**- Disturbances/disorderly, domestic violence, harassment, suspicious person complaints.
- Sex Offender Registration- **11**
- Missing Person(s)- **1**
- Juvenile – **0**
- Unattended death- **1**
- **7**- Arrests, **2**- booked into the Rio Blanco County Jail
- Traffic contacts **75** – traffic contacts, **2**-accident(s), **19**- citation(s), **56**- warnings, **24** of the traffic contacts were citizens of Rangely.

Personnel Issues:

- Officer Connor returned to work from his vehicle crash.
- Officer Hughes started his field training.
- Officer Block is out on extended medical leave.

Notable issues:

- The PD's patrol vehicles had their radars certified.
- Chief Hamblin assisted Meeker PD with oral boards for their Officer position.
- The PD provided security for the "George Floyd, Ahmaud Arbery and Breonna Taylor vigil" held at Hefley park.
- The PD and other first responders were honored at the first annual "Freedom March" that started at Hefley Park and ended at Elk's Park.

GAS DEPARTMENT/Building & Grounds – SUBMITTED BY KELLI NEIBERGER

Project status/Current Issues:

- Meter Reading, get reads off large meters, go over reports and meter proof, make corrections, reprogram meters, final meter proof, recheck proof after gas rate calculated

- Gas usages and rate for June
- Weekly charts, pressures, odorant check
- Leak Calls – 2
- Customer Calls – 2
- Carbon Monoxide tests - 1
- Locates for May - 41
- Work Orders – 27
- NPSO – (Non-payment shut-offs) – started with 12 and 5 were shut off
- Periodic Meter Changes – these are on hold due to COVID-19
- Positive responses sent for all locate requests
- Periodic monitoring of Border Station
- Purchasing – we continue to purchase necessities but are being careful not to spend unnecessarily
- Checks on construction and boring crews working in Town
- Call schedule July 2020
- Update Meter Files
- Check gas meter at Recreation Center and refill with oil
- Abandon gas service at 819 E. Main St.
- Pressure test gas service to shop at 2000 E. Main St. to rule out gas leak on service line
- Third party hit gas service line to 154 S. Sunset Ave. Line was repaired.
- Gas line inspections on Pinyon Circle where new electric main is being installed
- Regulator testing
- Repair barricades
- Haul road base to Gas Shop
- Oversee tasks and requests for maintenance, including White River Village
- Mosquito abatement is ongoing. The Town is using a combination of larvicide and fogging with the unit we have in the back of a truck.
- Average low temperature May
- Mapping and paperwork
- Maintenance check on Town trucks and equipment
- Building & Grounds – refurbish another apartment at White River Village, work on sprinkler systems on Town properties, respond to tenant calls and complaints at White River Village and duplexes on W. Main St., mowing, weed control, deal with sewer issues at White River Village and Town Hall
- Weed spraying and shop clean up
- Shampoo carpets at Gas Shop

Personnel Issues/Events:

- All Building & Grounds and Gas Dept. employees have signed up for one of the free online classes offered by CNCC in an area relevant to their job duties

Notable Issues/Events:

- Continue to keep surfaces sanitized at Gas Dept.

Public Works– Submitted by Jeff LeBleu

Project status/Current Issues:

- Airport water line project 90% complete

Crew Activities:

- Repair curb stops
- Vehicle
- Equipment and machinery maintenance

- Cut and spray weeds
- Remove asphalt for Linda Farney sewer line
- Stake out airport water line project
- Repair street signs
- Sweep streets
- Repair flags
- Water line at airport
- Wash wall on South Stanolind
- Put up flags

Personnel issues: *N/A*

Notable Issues/events:

Animal Shelter– Submitted by Linda Farney

Project status/Current Issues:

- 21 Running At Large reported
- 8 Dogs Impounded
- 7 Dogs Released to Owners
- 2 Barking Dog Complaints
- 3 Citations
- Report of Neglect – 2 horses
- 2 Animals at the Shelter – 1 Dog & 1 Cat

Personnel Issues/Events: *N/A*

Notable Issues/events: *N/A*

Water/Wastewater – Submitted by Donald Reed

Project status/Current Issues:

Water Treatment Plant:

General note. The Department remains in full operations but is exercising extreme caution in dealing with workloads that pertain to the general public and other personal, considering the current health situation.

- Day to day operations for the Water Plant were good this month, average daily water production is at 1.2 mg per/day and climbing. Operations have tapered back since winter run off is over and the White river is slowing down, the current discharge from Kennedy reservoir into the White is 369 (cfs) cubic feet per second. There are no problems with operations at this time.
- Completed and posted the 2019 Consumer Confidence Report as compliance for State requirements.
- Completed State Eligibility Reports for both water and wastewater to be eligible for the SRF and DOLA grant in 2021.
- Worked with Qual-Cor on reviewing the performance of the corrosion system that was installed. Testing was completed over a two-day period. One test during a full operation run cycle. Then the second test after draining and cleaning of the sed-basin. Conclusion of these test showed the system is working but may need to be beefed up slightly by adding additional anodes which will be relatively easy to accomplish. The amount will be outlined in the follow up report, which will be in a few weeks.

- Completed an extensive review of the new Reg 11 that will go into effect by the end of the year. Regulation 11 pertains to the yearly requirements for our (GRS) Ground Storage Reservoirs and the (BFCC) Back Flow Cross Connection program. The GRS requirements were much more favorable for the town in reducing the number of yearly inspections needed. BFCC program remains the same but additional emphasis was put on to continuously expand surveying, the department has elected to hold off on additional survey until mandated compliance is met first.
- Department is currently looking into proposing a meter replacement program based on a 10 year turn around cycle, currently we around 920 meters not counting commercial. This proposal will most likely have to be a capital improvement project but would not classify under a grant. The proposal will be presented in 2021-year budget cycle.
- The 139 Water Line Project is under way with Striegel mobilizing their equipment the last week of June. Work at this time mainly consist of bringing in fill dirt and waiting on materials to be delivered.
- Still in the process of working with water loss calculations we decided to see if the distribution billing system could be broken out into the three categorical zones that we already have High, Middle, and Low Zone, this would enable us to meter and have a more accurate accountability where high water loss is occurring then we could focus and correcting this problem and conserving resources. Normal water loss should be around 5-7%.
- Monthly compliance reports were sent to state with no compliance violations for this reporting period.
- Department is working on collecting the data needed for the designing the of the new pump station, we have been waiting on SGM to complete the Towns flow study to determine the size of pump required and feasible study of locations along with other associated costs. Should have everything we need in the next few weeks.

Wastewater Plant:

- Spent a considerable amount of time working on removal of duckweed on Pond C. In conjunction with annual pond turnover to lessen the burden on the UV system. We are also working on converting back to the old CL2 gas system which is still in progress.
- Completed repairing the problems that we had with connecting sewer lines on West Bell. We were able to run a new line for Linda Farnies property in the street.
- The department was able to work with SGS Lab link and have a courier service to pick up samples to resolve problems with meeting state regulations.
- Had a sit-down meeting with SGM on the design for a new headworks building, now we are working on reviewing and pricing out the different options. We should be close to completion by the end of December. We will keep moving this project forward.

Utility Department Activities:

- Had 57 Locates, meter reads and rereads, 11 Work orders. High/Low usage report (full) review.
- Worked on clearing brush out at pre-set ponds.
- Department still working on a facility assessment and inventory program which also be part of the Utilities Mater Plan.
- Attended online meetings with the Conservancy Committees.
- Had no Raw water issues with irrigation system.

- Still working on preliminary meetings in Town with water users in small groups about different aspects of river usages with various entities that could benefit from using the White River.

Personnel issues:

- All personnel have signed up for management classes thru CNCC

Notable Issues/events: *N/A*

WRV/Liquor-Code Enforcement– Submitted by Janet Miller

White River Village:

Project status/Current Issues:

- Processed 1 new tenant sent to RD
- Sprinkler system repaired

Project status/Current Issues: cont.

- Maintenance and cleaning is ongoing
- Exterior windows cleaned
- Apartment rehab in progress

Notable Issues/events:

- Residents have been asked to continue practicing social distancing and to stay home when and if possible.

Personnel Issues/Events:

Liquor Licensing:

Special Event Permit:

- *N/A*

Main Street:

- Poole Memorial sprinklers repaired, and the center planter planted with annuals
- Town Hall spring cleanup completed; center planter planted with annuals
- Planted one more Town bump out; continue to water and maintain bump outs and planters along Main Street
- Town flowers placed on Main Street; watering and maintenance continues daily

Notable Issues/events: *N/A*

Code Enforcement– Submitted by Janet Miller

Code Enforcement:

- 6.22.020 Domestic Animals Prohibited: 0
- 8.08.030 Weed Violations: 47

Governor Jared Polis

For Immediate Release
Wednesday, July 1, 2020
Shelby Wieman | shelby.wieman@state.co.us

Governor Polis Announces Appointments to Rio Blanco County and Rio Blanco Associate Courts

DENVER - Gov. Polis today announced the appointment of F. Joseph Fennessy Jr. to fill two part-time vacancies on the Rio Blanco County and Rio Blanco Associate Courts in the 9th Judicial District. The vacancies will occur because of the retirement of the Honorable Laurie Noble, who held both positions.

Joseph Fennessy owns a private practice in Meeker, a position he has held since 1997. His practice focuses on civil litigation and transactional work. Previously, Mr. Fennessy was a Deputy District Attorney in the 9th Judicial District (1982-1986; 1991-1997); Law Clerk and Trial Staff Attorney at Aetna Life & Casualty (1988-1989; 1990-1991); Attorney at Chesteen & Halpin (1989-1990); Deputy District Attorney in the 4th Judicial District (1986-1987); Denver District Court Clerk to the Honorable Susan Barnes (1981); Attorney at Hunt Brown Esq (1981); and Attorney at Thomas Barret & Associates (1980). Mr. Fennessy earned his B.S. from Central Connecticut State University in 1973 and his J.D. from University of Tulsa Law School in 1978.

The appointments are effective July 2, 2020.

CWCB Risk MAP News!

This quarterly publication includes information related to ongoing Risk MAP projects across the State, as well as management and mitigation information for floodplain managers. For more information and for additional updates, visit www.coloradohazardmapping.com. For program questions, contact thuy.patton@state.co.us.

Community Partnership and CWCB Support during COVID-19

The Colorado Water Conservation Board (CWCB) understands that there is still some uncertainty in daily and long-term operations and that many things are likely demanding your attention. Our project team (CWCB, FEMA, and contractors) would like to continue community coordination and support in the most helpful way possible during this unprecedented time.

We are continuing to advance flood study efforts. All active projects and relevant information is available at www.coloradohazardmapping.com. Internally, we will be communicating primarily through email and virtual meetings.

I would appreciate it if you could take a moment to briefly update us on how your community is presently operating and what would be beneficial to obtain from us during this time. Please either reach out to my team directly, at thuy.patton@state.co.us or marta.blancocastano@state.co.us. You may also respond to the email that transmitted this newsletter.

Best Wishes,
Thuy

Full LiDAR Coverage for Colorado....coming soon!!

We are excited to announce that the remaining portions of Colorado will have LiDAR flown in the near future. As of June 2020, funding has been secured to acquire LiDAR for all the remaining areas in Colorado!

- The USGS is leading the data collections for the northwest portion of the state (covering Moffat, Rio Blanco, northern Routt, Jackson, and Grand Counties), as well as the central-eastern plains in Kit Carson, Cheyenne, northern Kiowa, most of Crowley, and southern Washington and Yuma Counties.
- A small portion in southeast Las Animas and southwest Baca Counties is also currently being obtained from a Northeast New Mexico acquisition effort which will help complete that southeast corner of our state.
- The southwest portion of Colorado is currently in the final stages of quality reviews and should be delivered to CWCB in the next few months.

Our long-term goal is to continue working with communities on updating flood risk data and information, and hence ensure protection of life and property across the many beautiful places in the Centennial state. Having high quality topographic data is the foundation to achieving this goal.

The map below shows the LiDAR status in Colorado as of June 2020:

Ongoing Risk Map Projects Across Colorado

The CWCB team continues working to update flood risk information across Colorado. Figure 2 shows counties with ongoing Risk Map projects as of June 2020.

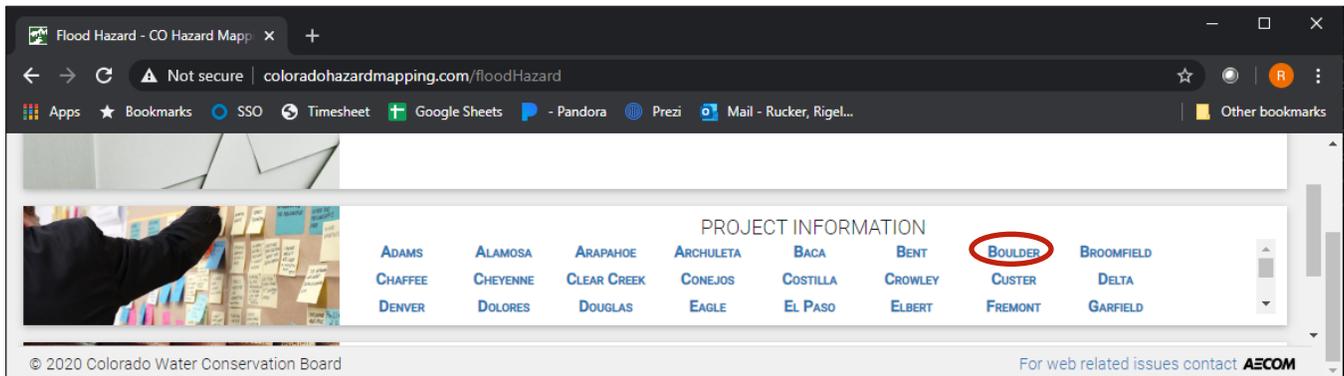

- The blue colors portray counties where CWCB is either conducting Base Level Engineering (a wide scale, automated approach to analyzing flood risk in order to provide communities with an initial, draft overview of local conditions) or LAMP efforts (Levee Analysis and Mapping Procedure)
- Counties in yellow are undergoing data development such as hydrology, hydraulics, and/or floodplain mapping
- Counties shown in red have preliminary FIRMs and are either in the appeal period or reaching the Letter of Final Determination (LFD) phase
- Counties with brown hashing have multiple projects and hence multiple statuses currently
- The rest of the thirteen counties do not have current in-progress projects this summer.

Be on the lookout for more information if you are in one of these areas with ongoing projects; numerous community actions are necessary during this time for all affected communities. Visit www.coloradohazardmapping.com for important information on the process of any ongoing project, and for details on how your community can access, visualize, and manage the produced data.

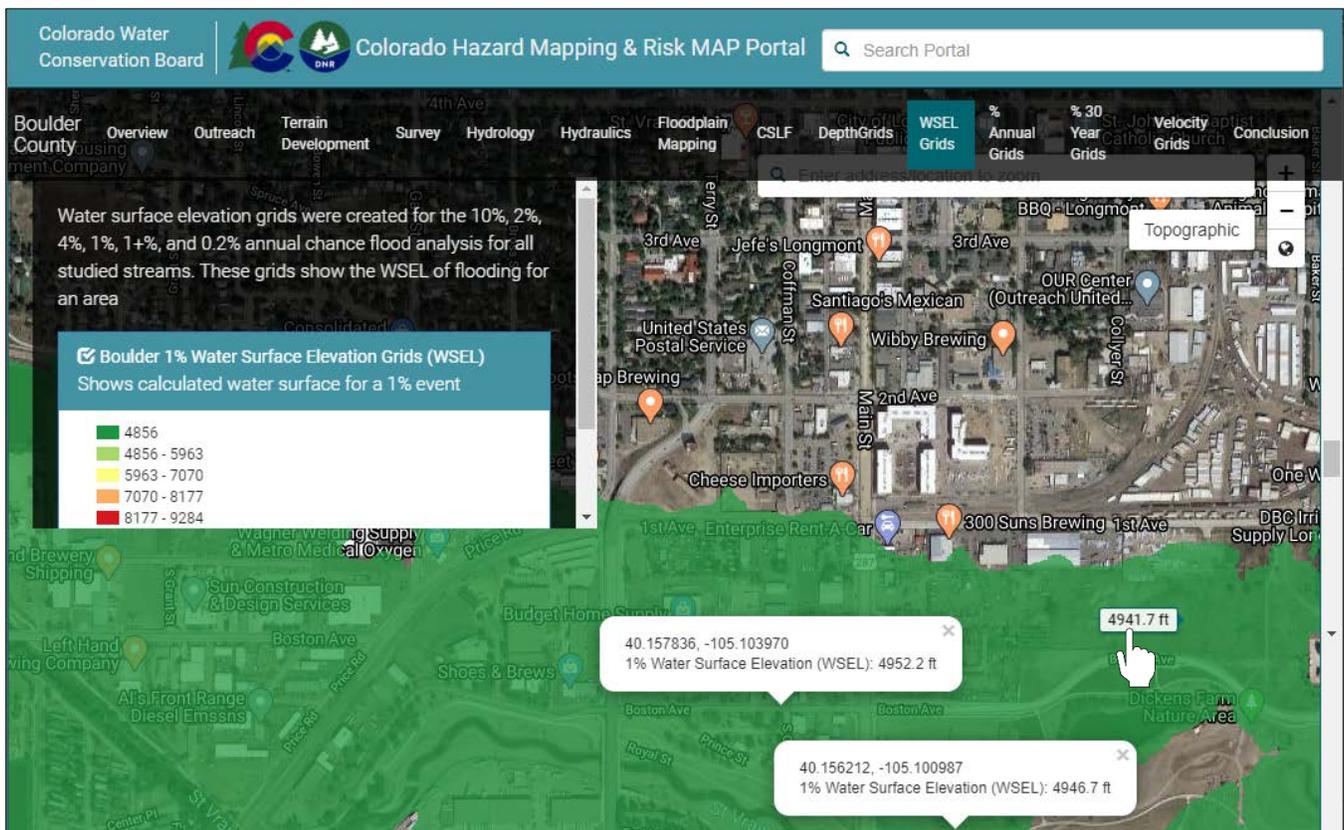

Website Updates

As CWCB continues to complete flood studies across Colorado, new data is continuously added to www.coloradohazardmapping.com. Find new information by clicking your county under Flood Hazard >> County. See an example below of how to visualize current posted data for Boulder County.

Selecting the county opens a user-friendly, map-based project page. Numerous tools are provided to help floodplain managers administer their program, including a visual base flood elevation checker, flood depth checker, percent chance of flooding calculator, and more. Select the desired tool at the top of the page, and then point and click on the desired location in the map, as shown in the graphic.

Training! New How-Tos, Video Tutorials, and Templates

CWCB recognizes that many floodplain managers would be interested in additional training and in being able to access common resources easily, especially as COVID-19 is limiting in person interactions including upcoming learning opportunities. As such, the CWCB has begun creating how-to documents, training videos, and templates for communities to use. CWCB will publish on these tools on www.coloradohazardmapping.com under Flood Hazard >> General Information. **In the meantime, you may access a set of materials and resources from the table below, which we will update from time to time or if new resource requests are made.**

Upcoming Meetings around the State

CWCB Contacts

Multiple meetings are scheduled with communities in the coming months. *Note that meetings are currently being conducted, and expect to continue being delivered, in virtual format (though we can accommodate for hybrid meetings if desired, with some staff in-person and some attending virtually).*

Eagle County PMR:

July 2020 – Flood Risk Review Meeting

El Paso County:

Late July – Phase 2 Kickoff Meeting

Garfield County:

Late Summer 2020 – Flood Risk Review Meeting

Gilpin County:

July 1st 2020 – CCO and Resilience Meetings

TBD: Public Meetings

La Plata/San Juan/Archuleta Counties (Animas Watershed Project):

August 2020 – Resilience Meetings

Lincoln County:

Summer 2020 – Pre-Flood Risk Review Meeting

Phillips County:

Summer, 2020 – Project Transition Kickoff Meeting

Rio Blanco County:

July 21-22, 2020 – Public Meetings

Teller County:

Late July – Phase 2 Kickoff Meeting

Weld County:

July 2020 – Resilience Meeting

Counties along the Rio Grande River (Mineral, Costilla, Rio Grande, Alamosa, Conejos):

Late Summer 2020 – Hydrology Review Meetings

Flood Mapping Program Manager:

Thuy Patton

Preliminary Flood Insurance Rate Maps to be presented

Dear Rangely Property Owner,

Preliminary Flood Insurance Rate Maps (FIRMs) for Rangely produced by the Colorado Water Conservation Board (CWCB) will be available for public viewing at an upcoming meeting hosted by Rangely and CWCB, as shown on the right. The maps are a part of the Upper White Flood Study that has updated flood risk for Town of Rangely.

The Upper White Flood Study maps are the result of data development conducted within the past few years and are also in the beginning stages of regulatory floodplain information approval and adoption by the Federal Emergency Management Agency (FEMA). These maps have important implications related to property improvements, flood insurance rates and requirements, and obtaining federal loans for any future sale of your property.

We are writing to make you aware that your property has been identified as being located in the proposed regulatory floodplain based on the updated mapping. We recommend that you attend this public meeting and/ or contact your local floodplain administrator to understand how mapped floodplain designations affect insurance requirements and future improvements to your property.

In order to provide you with an opportunity to review the preliminary FIRMs, ask questions and provide input, Town of Rangely will host an open house on Tuesday, July 21, 2020 at 5:00pm at Rangely Town Council Chambers. Please email mwebber@rangelyco.gov to RSVP for this meeting and/or to obtain the Zoom Link. Representatives from the county, Town of Rangely, your local floodplain administrator, Colorado Water Conservation Board representatives, and FEMA representatives and insurance specialists will be on hand to explain the process and answer questions.

Our community's comments are an important part of FEMA's review process, and the agency will consider them carefully before it publishes the final FIRMs and Flood Insurance Study reports for Rio Blanco County.

For further project information, visit www.coloradohazardmapping.com. For more information on FEMA's flood hazard mapping program, visit www.fema.gov/national-flood-insurance-program-flood-hazard-mapping.

If you have a disability and require a reasonable accommodation, contact The Town of Rangely at mwebber@rangelyco.com . If you have any questions, please contact your local floodplain administrator as follows:

WATER

LAW IN A NUTSHELL

PRESENTED BY: **AARON CLAY**, RETIRED ATTORNEY

Rangely - Saturday, July 25th, 2020

8:00am-5:00pm | CNCC—Rector Lecture Room (Rector Building)

EARLY BIRD DEADLINE: Monday, July 20th
Registration fee includes lunch and materials
Cash or Check Only

This seminar will cover all aspects of the law related to water rights and ditch rights as applied in Colorado. Subject matter includes the appropriation, perfection, use, limitations, attributes, abandonment and enforcement of various types of water rights. Additional subject matter will include special rules for groundwater, public rights in appropriated water, federal and interstate compacts and more!

Gov. Polis Provides Update on Colorado COVID-19 Response

DENVER - Governor Jared Polis was joined by Jill Hunsaker Ryan, Executive Director of the Department of Public Health and Environment, to provide an update on the State's response to the COVID-19 pandemic. The Governor and Ryan emphasized the importance of Coloradans modifying social behavior and following social distancing rules.

“We know we can’t behave the way we did last summer, or even the way we did in February. Though we have taken steps to open up more of our economy, we have to remain vigilant,” said Governor Jared Polis. **“If we continue keeping a safe distance of six feet from others, mask up when we leave the house, and connect with each other virtually when possible, we’ll start to see less tests coming back positive for COVID-19 and begin to create more opportunities to get our economy back on track. The nature of the virus alone does a great job of setting us back. Do not give the virus the power to do what it does best: spread by engaging in risky, irresponsible, and thoughtless behavior.”**

In order to curb some of that social behavior, the Governor announced that, for the next 30 days, the State is suspending all alcohol sales after 10:00 p.m. each day. This will apply to all entities that are licensed to sell liquor. “All licensees contained in Articles 3, 4, and 5 of Title 44 of the Colorado Revised Statutes must cease alcohol beverage sales to end consumers at 10:00 P.M. each day,” the Executive Order reads. The Order takes effect at 9:00 a.m. on Thursday, July 23, 2020. Read the full [Executive Order](#).

Amidst rising cases, CDPHE has created a system to work with counties experiencing high transmission. Counties whose metrics put them in violation of their variance have two weeks to reverse their disease trend to keep their variance. If a county is unable to reverse the trend, the variance will be revoked and the county must follow the Safer at Home Executive Order.

CDPHE has requested that such counties submit a mitigation plan with strategies such as social distancing orders, increased testing and contact tracing, enforcement of social distancing and mask wearing, and increased education. Counties also have the option to revert to the Safer at Home Executive Order, which eight counties have decided to do in lieu of a mitigation plan.

MICHAEL BENNET
U.S. SENATOR *for* COLORADO

FOR IMMEDIATE RELEASE

Thursday, July 23, 2020

Bennet, 36 Senate Colleagues Urge Significant New, Flexible Funding for State and Local Governments

Washington, D.C. – Colorado U.S. Senator Michael Bennet joined 36 of his colleagues in a letter to U.S. Senate Majority Leader Mitch McConnell (R-Ky.) requesting that he support the funding amount and proposed funding flexibility for state and local governments that was included in the Health and Economic Recovery Omnibus Emergency Solutions Act (HEROES) Act passed by the U.S. House of Representatives. The funding includes \$500 billion for states, \$375 billion for local governments and \$20 billion each for territories and tribal governments.

As state and local governments report anticipated cuts to their budgets, this will invariably affect such services as public schools, social services, and health departments, with widespread economic consequences. Local and state governments expect cuts in services to local health departments which employ essential workers during the Coronavirus Disease 2019 (COVID-19) pandemic, as well as child welfare workers, social workers, firefighters, and more employees. Many county and state governments have been forced to furlough workers due to the pandemic, and without funding, these furloughs could become permanent job losses. Decreased local government spending may lead to a \$344 billion decrease in economic output and 4.9 million fewer jobs.

“Providing additional funds to state and local governments will ensure that jurisdictions have the financial resources to fund first responders, and the life-saving work done in our public hospitals and by public health departments in communities large and small. Existing funding is not enough for jurisdictions grappling with these extraordinary shortfalls. Governors of both parties may be forced to balance their budgets by cutting education funding for thousands of school districts and slashing funding to support the millions of Americans who reside in nursing homes or receive care in home and community-based settings,” **wrote Bennet and the senators.** “It is essential that the federal government provide fiscal support for those who are responding directly to and are most affected by this unprecedented health and economic crisis.”

In addition to Bennet, the letter was signed by U.S. Senators Bob Casey (D-Pa.), Bob Menendez (D-N.J.), Tammy Baldwin (D-Wis.), Kamala Harris (D-Calif.), Richard Blumenthal (D-Conn.), Sheldon Whitehouse (D-R.I.), Dianne Feinstein (D-Calif.), Ed Markey (D-Mass.), Jeff Merkley (D-Ore.), Mazie Hirono (D-Hawaii), Ron Wyden (D-Ore.), Kirsten Gillibrand (D-N.Y.), Amy Klobuchar (D-Minn.), Bernie Sanders (I-Vt.), Chris Van Hollen (D-Md.), Chris Coons (D-Del.), Debbie Stabenow (D-Mich.), Cory Booker (D-N.J.), Dick Durbin (D-Ill.), Elizabeth Warren (D-Mass.), Ben Cardin (D-Md.), Sherrod Brown (D-Ohio), Gary Peters (D-Mich.), Tina Smith (D-Minn.), Catherine Cortez Masto (D-Nev.), Tammy Duckworth (D-Ill.), Maggie Hassan (D-N.H.), Doug Jones (D-Ala.), Angus King (I-Maine), Martin Heinrich (D-N.M.), Chris Murphy (D-Conn.), Jack Reed (D-R.I.), Jacky Rosen (D-Nev.), Brian Schatz (D-Hawaii), Jeanne Shaheen (D-N.H.) and Tom Udall (D-N.M.).

Dear Majority Leader McConnell,

We write to you as a group of senators who represent states that are in serious need of immediate financial assistance at the state, county, and local levels. We ask that you support the funding amount for State and Local governments that was included in the HEROES Act, including \$500 billion for States, \$375 billion for Local governments and \$20 billion each for territories and tribal lands. We also ask that you work with us to provide both significant new funding to state and local governments struggling to pay their first responders, as well as flexibility in the use of those funds.

The COVID-19 pandemic has created sudden revenue shortfalls that state and local governments could not have foreseen. A recent survey found that 96% of municipalities anticipate budget shortfalls this year due to precipitous revenue decreases caused by the COVID-19 response. In most cases, states are restrained by constitutionally-mandated balanced budgets. Without additional revenue, state, county, and local governments will have no choice but to fire or furlough many of their more than 20 million employees. Since February, state and local governments have cut a total of 1.5 million jobs, an 8% drop that is twice the decline seen during and after the 2007-09 recession. Forcing millions of people out of their jobs will further strain an already reeling economy, inflate the unemployment rolls, and eliminate the essential services these employees provide.

We seek significant new resources to reinforce the work of state and local governments. Providing additional funds to state and local governments will ensure that jurisdictions have the financial resources to fund first responders, and the life-saving work done in our public hospitals and by public health departments in communities large and small. Existing funding is not enough for jurisdictions grappling with these extraordinary shortfalls. Governors of both parties may be forced to balance their budgets by cutting education funding for thousands of school districts and slashing funding to support the millions of Americans who reside in nursing homes or receive care in home and community-based settings. At least 44,000 deaths caused by COVID-19 were among nursing home residents and workers in nursing homes and other long-term care settings, representing more than 40% of deaths nationwide. It is essential that the federal government provide fiscal support for those who are responding directly to and are most affected by this unprecedented health and economic crisis.

In addition, state and local governments require flexibility in the application of funds, both in the funding already provided in the CARES Act, and in any new funds provided going forward. As mentioned, jurisdictions are facing drastic revenue shortfalls, which are anticipated to worsen throughout the duration of the health crisis. Yet the money provided by the CARES Act may not be spent to replace lost revenue, which is a restriction that is neither intended nor required by the CARES Act. To stabilize these budgets and to ensure jurisdictions have the resources necessary to battle the virus and provide the services the American people rely on, more flexibility is essential so that jurisdictions can use money wherever it is most needed.

The COVID-19 crisis has devastated communities throughout the United States. The country needs you to act decisively and quickly to ensure that locally-funded first responders, educators and health care providers across the nation can continue to provide assistance to respond to this crisis, sustain local economies and support families living with the fear and uncertainty created by this unprecedented public health emergency.

DINOSAUR NATIONAL MONUMENT NEWS RELEASE

Dinosaur National Monument Instituting Temporary Ticketed Entry for its Quarry Exhibit Hall to Support Visitor Access and Safety During COVID-19 Pandemic

Dinosaur, CO and Jensen, UT – The National Park Service today announced the implementation of a temporary ticketed entry system for access to Dinosaur National Monument’s popular Quarry Exhibit Hall beginning July 28. This ticketing system will provide the visiting public a reasonable opportunity to comply with COVID-19 public health guidelines by managing the pace and flow of visitation and reducing crowding.

Park visitors planning their trips to Dinosaur National Monument will be able to reserve a time to visit the Quarry Exhibit Hall—an indoor museum featuring fossilized dinosaur bones in situ—on Recreation.gov for \$1 per ticket beginning at 10:00 am MT on July 24. The standard Monument entrance fees are still required in addition to the timed ticket. Tickets will be required for entry beginning on July 28. Additionally, the park is setting aside 40 percent of available tickets for visitors booking at 10 am MT two days prior to their visit for last-minute reservations or visitors unaware of the new policy. Any remaining tickets will be available for purchase up to the time of the ticket on the recreation.gov mobile app. For visitors without access to a computer or smart phone, tickets can be purchased through the Recreation.gov call center 1-877-444-6777 which is open from 10 am to midnight ET, seven days a week.

A timed ticket will apply only to access for the shuttle and Quarry Exhibit Hall. All other parts of the monument will be open for recreation as they have in the past, and tickets will not be necessary for anyone river rafting, hiking, camping, scenic driving, stargazing or other park activities. Additionally, Dinosaur National Monument will terminate the ticketing system once the park is able to safely resume normal operations based on state and local public health and Center for Disease Control and Prevention guidelines.

Dinosaur National Monument’s annual visitation is approximately 300,000 to 325,000. While the monument covers over 210,000 acres, the Quarry Exhibit Hall receives over 90 percent of that annual visitation. Most visitors arrive at the visitor center, then board a shuttle that takes them to the Quarry Exhibit Hall. The visitor center parking lot often fills during the summer, and as many as 3,000 people visit the facilities in a single day. Visitors experience a high level of congestion in the visitor center and the Quarry Exhibit Hall from late-May through mid-September and on weekends.

For more information on Dinosaur National Monument and the temporary timed ticket system see:

www.nps.gov/DINO

DOH Special Update

Emergency Rental Assistance

The Colorado Department of Local Affairs' Division of Housing has launched the Property Owner Preservation program in response to the COVID-19 pandemic, to allocate \$20 million in federal CARES Act funds for rental assistance to landlords on behalf of their tenants.

To Qualify for the Property Owner Preservation (POP) program:

- Your tenants complete applications stating that they were unable to pay rent because they experienced financial need due to COVID-19.
- The rent for the unit for which assistance is requested is set at or below the POP maximum rent [listed here](#).
- All reasonable mobile home lot rents qualify.
- The rental unit or mobile home park meet basic health and safety requirements. Self certification is required.
- Your property is not in foreclosure (if it is, a receivership has been established by the courts) and your state and local real estate taxes have been paid.
- You agree to all program requirements and provide the proper documentation.

Property Owners can apply on behalf of **all** residents owing rent due to the impacts of COVID-19. However, properties with just a few residents delinquent on rent, may consider referring those residents to the Emergency Housing Assistance Program (EHAP)

State health department releases information on Protect-Our-Neighbors certification
Local communities will only be able to qualify if they meet certain criteria

DENVER, July 7, 2020: Today the Colorado Department of Public Health and Environment (CDPHE) released a guide and application form to allow local communities to apply for Protect-Our-Neighbors certification. Communities can only apply if they meet eight criteria—including declining cases—and have attestation letters from hospitals, public health experts and local officials. Because cases are increasing in many counties throughout the state, most counties will not yet be eligible to apply for Protect Our Neighbors.

Local communities will be able to qualify for this status to gain more local control in their communities if they meet certain criteria, including low viral transmission and preparedness of the public health agency to successfully respond to an increase in cases. Once communities meet certification criteria, submit a surge mitigation plan, and are approved by the state, they will be able to permit activities at 50% of pre-pandemic capacity, with at least 6 feet between non-household members, and no more than 500 people in one setting at a time. The [guide to apply for Protect Our Neighbors is available here](#) and the [form to apply for certification is available here](#).

The state also released information on how local communities can apply for planning and infrastructure grants. [More information on grants are available here](#).

“We know that most Colorado communities are not ready to move into Protect Our Neighbors yet,” said Jill Hunsaker Ryan, executive director of the Colorado Department of Public Health and Environment. “But we wanted to make sure we shared these guidelines so communities could start planning. Preparing for this thoughtfully will help keep Colorado safe.”

In order for a community to qualify for Protect-Our-Neighbors certification status they must meet eight metrics in the following categories:

- Low disease transmission levels (including stable or declining COVID-19 hospitalizations or fewer new cases in the past two weeks),
- Local public health agency capacity for testing, case investigation, contact tracing, and outbreak response (including the ability to test 15 people per 10,000 residents per day; the ability to conduct case investigation and contact tracing for at least 85% of assigned cases within 24 hours; a plan that documents the ability to investigate and contact trace their share, based on population, of our state’s overall 500 cases per day goal; and strategies to offer testing to close contacts of outbreak-associated cases)
- Hospital ability to meet the needs of all patients and handle the surge in demand for intensive hospital care (including the capacity to manage a 20% surge in hospital admissions/patient transfers and two weeks of PPE available.)

Protect Our Neighbors requires all Coloradans to continue to support and protect people who are at [increased risk for severe illness from COVID-19](#), including older adults and people with underlying medical conditions. Different communities may be in different phases -- Stay-At-Home, Safer-At-Home, or Protect Our Neighbors -- and may move between levels during this pandemic. Communities that are able to loosen

restrictions under Protect Our Neighbors may need to tighten restrictions again to Safer-at-Home or Stay-at-Home levels if they see case increases, outbreaks, or a surge on their hospital systems.

Communities that cannot meet certification criteria for Protect Our Neighbors are able to apply for [variances at Safer at Home](#). When applying for a variance, counties must clearly indicate which provisions the county is requesting a variance from and describe preventive measures the county will require to meet the intent state's orders.

For extensive information on Protect-Our-Neighbors, including guidance for communities to qualify for this phase, please visit covid19.colorado.gov/protect-our-neighbors.

Continue to stay up to date by visiting covid19.colorado.gov.
